

# AEROSPACE COSTA RICA, INNOVATION UNDER THE HIGHEST STANDARDS

## Costa Rica, strategic hub for specialized manufacturing operations

- More than 25 years supplying to OEMs tier 1 to tier 3.
- Experienced based in MRO with more than 50 years of operation.
- In 20 years, the country has doubled exports of aerospace goods.
- Developed a solid local aerospace cluster.
- #1 country in innovation in the Latin American region. (source: WEF)
- More than 30 export destinations.

- Costa Rica Aerospace industry is a proven ecosystem of manufacturing providers offering high value and stability services from a nearshore location to the US.
- Among several things, Costa Rica is an R&D hub for AdAstraRocket and VASIMR (Variable Specific Impulse MagnetoplasmRocket) a technology for advanced rocket propulsion.
- Development and testing of embedded software under the highest standards and certifications.

## Certifications

Quality and safety certifications are embedded in Costa Rican manufacturing processes, complying with internationally recognized standards.

## Manufacturing Capabilities

<b>Machining</b>	CNC Machinig	<b>Electronic/Mechanical Assemblies</b>	PCB Assembly	<b>Finishing</b>	Anodizing	<b>Specialized Services</b>	Maintenance MRO
	Welding		Box Build		Passivation		Logistics
	Laser Cutting		Cables		Heat Treatment		Auto & Manual Bonding
	WEDM		Thermocouples		Parylene Coating		Production Supplies
	Plasma Cutting		Connectors		Electro Polishing		NOT Inspection
	Waterjet Cutting		RTD, Sensors, Heaters, Heat Flux		Electroless Nickel		Software Development & Testing
	Sheetmetals: Stamping		Winding Assay		Chromate		Technical Documentation & Drawings
	Micromachining		Switches		Cooper		Engineering
	Machinery Design		Conformal Coating		Corrosion Testing		Calibration
					Powder		Electrical Variables
