TESTIMONIAL

We selected Costa Rica after careful research. It is now one of the top five destinations for US patients traveling abroad. All the dentists we considered were US board certified. I was impressed with Dr. Brenes from our first conversation. More than simply being nice and patient focused, he is extremely well qualified, as is the entire staff of Advance Dental. Indeed, it was a very easy to select Costa Rica after doing our research. We would make the same decision again."
